

Make the most of your prescription benefits

Convenient access

- For short-term prescriptions (three days or fewer) start at one of more than 7,800 CVS/pharmacy® locations to ensure the best price
- Or, access more than 68,000 network pharmacies nationwide, including independent pharmacies and chains
- Remember, if you fill a prescription at a pharmacy outside the network, you may be asked to pay full-price for your medicine

Home delivery

- You can order medicine you take routinely for diseases or chronic conditions in 90-day supplies that typically cost less than one 30-day fill
- Sign up for convenient mail service at no extra cost and see how easy home delivery can be

Cost-effective generics

- Ask your doctor about generics that can save you up to 80 percent off brand-name drugs
- Generics have the same quality and performance as brand-name medicine. Generics are also FDA-approved and regulated just like brand-name medicine

Online tools

Register at **Caremark.com** and you can access time and money-saving convenience tools:

- View prescription history and track your spending
- Compare costs to find lower-priced options
- Check possible drug interactions
- Track your refills
- Learn about medicine
